

Enchanted Sea Crystals Clean Air You Breath

...continued from page 3
 reduce susceptibility to colds and flu. Negative ions can enhance the immune system, increase mental alertness and concentration, purify indoor air and control odors, plus many additional reported health benefits.

The healing properties of salt have been recognized since the beginning of recorded history. Every civilization has valued salt, using it as trade currency, a preservative for food and a valuable health tonic. In many cultures, people seek the refuge of salt crystal mines for their health and rejuvenation. It has been reported that deep within a salt mine, the symptoms of asthma, allergies and other respiratory illnesses are relieved, even joint pain is

reduced when a person is surrounded by salt crystal rocks.

For thousands of years, people suffering from chronic congestive problems have gone to clinics located in salt mines for treatment. This treatment is known as Speleotherapy. The very dry, negative ion environment of a salt mine helps to clear out the patient's bronchial tubes and sinuses, killing bacteria and other microbes.

Researchers have discovered that if there is little or no moisture in the air, small salt crystals are largely ineffective at producing Negative Ions. However, areas such as the outdoors, bathrooms and spas have too much humidity and the salt crystals dissolve rapidly when exposed to high humidity

levels above 60 percent. Researchers also discovered that when a salt crystal is heated slightly, it will generate Negative Ions. The more Negative Ions that are generated, the better the ambient air will become. The size of the salt crystals and the conditions of the surrounding area, will ultimately determine the radiant effect of a Negative Ion discharge.

The natural beauty of our Enchanted Sea Crystals are the perfect accent to any room in your home, office, beauty salon, cafe, restaurant, bar, nightclub or retail store. The soft illumination of the glowing light will create an enchanting environment that will freshen the air, inspire your imagination and awaken your senses.

Enchanted Sea Crystals can be used in any room where the air needs to be cleaned or an odor needs to be controlled. They can help eliminate odors around smoking areas, litter boxes, baby nurseries, kitchen areas and laundry rooms - anywhere you want to restore a fresh clean air environment. Cafe, restaurant and bar owners have used Sea Crystals to help clean the air and set a romantic mood. They are located strategically on the bar, in a private booth, or on the dinner table in order to create a more enchanting environment. The soft illumination of the glowing light when used with a tea candle freshens the air, inspires the imagination and awakens the senses.
