

Annay Bannanny

...continued from page 19

Here is what happened: the husband had a crooked ding-dong that wouldn't work and didn't care to fix the problem. The wife went out looking for love. The husband found out and the result was an angry divorce. It was all a mistake and if he asked I would go back in a second. The problem is that I am tired of taking all the blame in this one-horse town! It takes two to tango. Beware that someday those who judge may find themselves walking in shoes they may not want to wear. Have a great day.

Signed,
Horsing Around the Keys

Dear Horsing Around,

It's good to walk a mile in another person's shoes, because then you'll be a mile away and have their shoes. Now ask yourself, "Do I really give a crap what they think?"

Those who judge you are probably jealous or feeding their own ego with the shame of your transgression. Those are the people whose shoes you must steal. Hold your head up high and keep on walking away from them. When you get to my house we'll laugh and have a beer together.

Sincerely,
Anny Bannanny

Fish Facts

Continued from page 6...

Worldwide, 24,000 people engaged in fishing, fish farming and processing are killed at work every year.

More Americans fish than play basketball and football combined.

Rich in vitamins and low in fat, fish contains protein we need for strong bodies.

The Florida State Fish is Sailfish (saltwater) and Largemouth Bass (freshwater).

Florida tropical fish farms hatch, grow, and supply 95% of the tropical fish in North America.

There are over 25,000 identified species of fish on the earth.

It is estimated that there may still be over 15,000 fish species that have not yet been identified.
