

**THE
BEST TIMES
TO GO
FISHING**

SUNRISE

Breakfast for all
Sunrise is an optimal time for fishing in saltwater and fresh. Low light conditions and cooler temperatures usually aid in catching cooperation

RAIN

Fish in the RAIN
Rain aerates and cools the water during times of low dissolved oxygen levels in the summer. Barometric pressure changes and water turbidity give you the upper hand.

NEW MOON

New MOON
Fish are most active during the major and minor feed near the new and full moon. The moonlight and gravitational pull get them fired up.

SUNSET

Sunset Fishing
The water starts to cool down and oxygen aids in movement. Low light conditions give you the edge.
